

Preschool Summer Adventures

Is your child ready for a summer of adventure? Join us for our preschool camp program. We will maintain our teaching techniques and environment for learning, but add in a few special changes just for the fun and carefree summer time.

Summer Adventure Areas will include:

- **Animal Tales:** What child is not fascinated by animals? Learning about wildlife helps children understand the balance in our ecosystem. The broad Animal Adventures theme includes opportunities to incorporate many different kinds of critters – big and small, wet and wild.
- **Express Yourself:** The arts provide unlimited ways for children to express their individual personalities. We will encourage creative expression through a variety of mediums.
- **Around the World:** The world is a mighty big place; help kids get to know it. Explore different cultures, discover similarities and differences, plan exciting adventures, and get to know the community right in your own backyard.
- **The Great Outdoors:** Summer gives us time to connect children with nature. There is so much to explore and learn about.
- **Fun and Fitness:** Outdoor time; extra daylight, warm temps...summer makes it easy to live healthy, to be active, and eat well. Run, play, and create magical moments relaxing under a tree with a healthy, delicious meal prepared together.
- **Science Lab:** Children are natural experiments. Delight them in our Science Lab with hands-on experiments and their very own discoveries about space, water, weather and textures.
