We're thankful for Elly's time with you as we get ready to move up. You've created a wonderful class dynamic and helped the kids grow so much academically and socially. They adore and respect you and are so much better prepared for school. ~The Roell Family

*Few teachers go to the lengths you do to teach, entertain and bond with the kids. Kid adoration cannot be faked. We see the great job you are doing with the children by how every child clamors to spend time with you. Elly adores you!
