

Dear Parents:

This year's Camp Explorations program has been specifically designed for children ages 4-6 years old and is tailored to meet our young adventurous campers' needs!

Our 10 week camp program will officially begin with a host of exciting and educational activities. Your child will enjoy a summer filled with art programs, math and science integration, cooking, sports and fitness, field trips, music and in house entertainment. **All of these programs (including field trips) are included in your child's weekly activity fee.**

Be sure to take a peek at the attached camp calendars to see the amazing trips and special events that we have planned.

Your child deserves the very best and Bright Horizons at Spotswood's camp programs are certain to excite and delight each camper!

We look forward to sharing the summer with you!
