

# A Summer Program to Celebrate!

**We're gearing up for summer fun and hope you're getting excited too!**

During the summer months we embrace the season by transitioning into our *Summer Program*. During this time we offer weekly themes, enhanced by special visitors, in-house field trips, and more! The best part is that all of these special additions happen during the course of your child's regular day with us. There's no need to worry about classroom or teacher changes; just a special summer camp twist to our already exciting program during the months of July and August!

**Here's a sneak peek into our Summer Program Weekly Themes for 2017:**
