On-site School-Age After-School Program

School-age children thrive in a safe environment where they can learn more about friendships and responsibility, and where they are challenged to learn and grow. In addition, our program offers students safe small-group assistance with homework. We also provide enrichments throughout the week for students interested in various subjects such as science, technology, art, and music.

Program Details

For school age children our after-school program offers:

- School-age classroom for children Kindergarten - 12 years
