Classroom: Toddler

Highlights

Flashcards and Child Directed Play

After circle time, the children took turns looking at the Halloween flashcards and would point to the pictures asking, "wats dat." Some of the kiddos are still fascinated with the big box and it's stars. The kids will take turns going in and out of the box taking toys and blankets to relax or just to sit.

Sensory Exploration

We played in orange colored rice in our own individual buckets with orange cups, real mini pumpkins and dragons. The children played with the dragons by roaring and flying them around their buckets. We worked on fine motor skills of scooping the rice, dumping the rice and using our fingers to pinch the rice and pick it up.

Pumpkin Patch

While on the playground, we went to a "pumpkin patch" by placing our mini pumpkins on the playground ground and let the children pick and play with the pumpkins.

The children carried the pumpkins around the playground while playing with the regular toys. How fun for them to pick their own pumpkin to take home tomorrow!
