

the
growing
world of toddlers
Bright Horizons at Deer Park

Safe and age-appropriate opportunities for physical activity in an environment that builds good habits and positive attitudes.

Toddlers and Twos are sensory motor beings. They explore the world with their senses and developing motor skills. Long before they understand concepts like "under" or "far" with their minds, their bodies are learning to navigate the up, down, over and under of the physical world. Their perceptions are sorting out sizes, colors, and shapes. Our curriculum provides toddlers with a rich learning environment with appropriate learning centers designed to build their vocabulary and support their growing bodies.

Curriculum Area: Caring Matters
Activity: Giving Hugs

We learn it by:

- Identify our feelings
- Listen and respond to our caregivers' suggestions
- Comforting ourselves by seeking a special object

We learn it by:

- Offering a hug and having caregivers identify, acknowledge and validate our feeling.
