

At Bright Horizons®, we understand the importance of ensuring every child is prepared for kindergarten and beyond. Our Kindergarten Prep program empowers 4-5 year-old children to take on new academic challenges and build confidence that will prepare them for a lifetime of academic success.

Our Kindergarten Prep program offers:

- Enhanced learning environments specifically designed to provide learning experiences that enhance school readiness, including: writing centers, language and media centers, enhanced math stations and science laboratories.
- Trained, professional teachers that help children achieve their fullest potential while fostering a spirit of community.
- The latest in educational technology including iStartSmart interactive touch screen computers and SMART Boards.
- Signature educational practices in language, math and science including journal writing, *Handwriting without Tears* and *Everyday Math*.
- *Bright Learner*, our process for understanding, planning and communicating your child's developmental journey including electronic portfolios, developmental assessments, and regular family conferences.
